

WIRELESS CAMERA LINK & MICROWAVE SYSTEMS

Links Broadcast offer HD & SD camera link systems and point-to-point microwave links.

A typical specification is as follows:

Manufacturer	Vislink
Frequency	2.1 - 2.5Ghz
Power	100mW
Range	10k (line of sight)
Modulation	COFDM
Latency	Standard delay – selectable to less than 3 frames Ultra low delay – 1 frame (40 m/s)
Antenna	Omni high gain
Format	HD & SD
Video Inputs/Outputs	HDSDI, SDI or composite
Audio Inputs/Outputs	Embedded or analogue
